

## From the Director's Desk

Q4 Newsletter—October 2020

Thank you for following along with our quarterly newsletters as a way to stay informed with our agency.

It is my pleasure to congratulate our most recent homeowners and

those who have taken the first step in their journey to buying a house. While we are still seeing clients based on appointments only, we have made some changes to our counseling and educational programs. Many of our services can now be done virtually.

In other exciting news, Salisbury NHS has received maintained its Exemplary Rating from NeighborWorks America, a congressionally chartered and funded non-partisan non-profit. The designation comes from an off-site assessment that reviews production and program services, resource management, financial and organizational management.

Ultimately, I hope you are staying healthy and well. Should you need guidance on your homeownership journey, we are only a phone call away.

### Buying Homes Have Gone Virtual

Despite challenges many are facing due to COVID-19, people are still buying houses! New and innovative approaches allow clients to shop virtually. We have seen some of the following options:

- Virtual house tours—realtors are able to Facetime or make videos of the home and you never have to step foot inside. Some companies have developed 3D interactive models to tour the home, similar to a video game.
- Live chats with realtors via ZOOM
- “Curbside Closings” where documents are slipped through your car window. Many lenders and realtors are also utilizing DocuSign which is an online secured platform for exchanging documents.
- Settlement Attorneys are offering an outdoor option for closing the sale. This may include masks and a picnic table outside the office.
- “Drive By Appraisals” allow appraisers to assess the value of your home from the street without ever going inside. While this option deters personal interaction, it may not be acceptable depending on the type of financing you choose.

Interest rates are at an all time low and the housing market is seeing homes “fly off the shelf.” Take advantage of some of these virtual options as it may suit your timeline of buying a house quicker than the traditional method. The ease of access allows you to take a tour at better times that suit your schedule and from the comfort of your own couch. Ultimately, you should decide if an in-person method or virtual option is best for you.

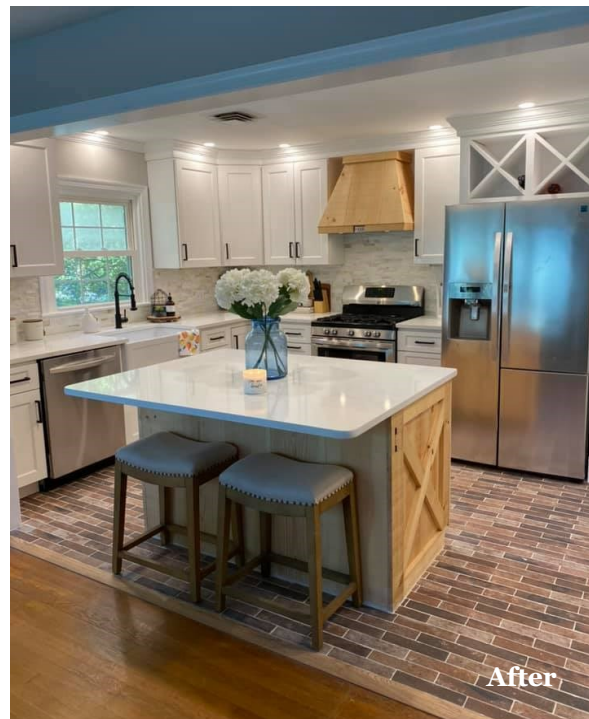

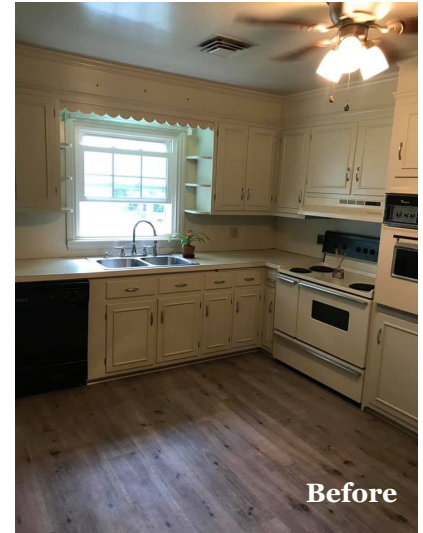

# HOMEOWNERSHIP EXPERIENCE STORY

From time to time we have clients who utilize our services more than once. In this edition of the Homeownership Experience Story, we want to highlight Regan Ringer. She first started working with our agency in 2018 to purchase a home within the city of Salisbury and utilized our down payment and closing cost loan. Fast forward more than a year later and now Ms. Ringer has a brand new kitchen. Her remodel was made possible with our 1% rehab loan. This loan allows the homebuyer to

borrow up to \$15,000 at a 1% interest rate for rehabilitation on things like roofing, siding, kitchens, fencing and more.

Interested clients may contact SNHS Assistant Director, Jane Hoy by calling 410.543.4626 for more information.
